Dear Mr. Forhan:

Thank you for your time and cooperation in our September 29, 1977, inspection of your P-10 and P-15/17 surface drilling operations.

As you requested, enclosed is a copy of our inspection report. Also enclosed are copies of the USGS and New Mexico State Engineer borehole plugging requirements. These requirements should apply to all of the boreholes drilled on your Pueblo of Laguna leases except those located in areas that will definitely be open-pit mined in the future. Should you have any questions, please feel free to contact me.

Sincerely yours,

(ORIG. SGD.) DALE C. JONES
